Internet Explorer 6 (IE6) is on its way out.
If you are unsure what browser you are running

- Click on HELP, then choose ABOUT INTERNET EXPLORER

Over the next couple months many of the tools we use will require you run Internet Explorer 7 and Higher. Please update you PC and or install [Firefox](#) or [Google Chrome](#) Internet Browser.

I personally use Chrome for 95% of my Internet use.

Contact me if you need any help: zack@zacksz.com

Thanks

Zack
