---

This article will explain how to Insert or Add link to Article.

First you will need to either put in the text for the link or Highlight it by selecting the text. Now you will need to click the Link Manager  button in the Editor to set up the link.

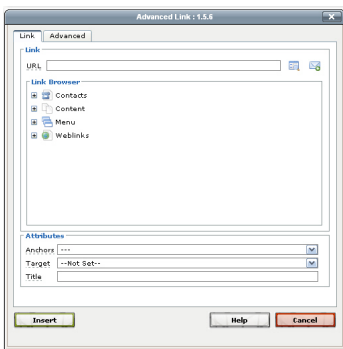

### Highlight Text

### Link Manager - Advanced Link 1.5.6

This allows you to make a link to Contacts, Content, Menu, and Web Links. In most cases Content and Menu is all you will use at first.

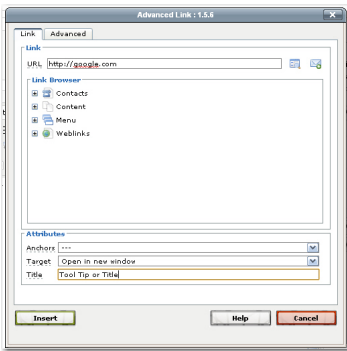

Example of a plain hyper link to Google.

## Insert or Add link to Article

Link will now show up in Hyper link Format for that page. 2 / 3

Next we will go through linking to a Article.

Highlight the text by selecting the text. Now you will need to click the Link Manager  button in the Editor to set up the link.

Open the Content Item and navigate to your article, or menu.
